The good news for them is that it looks like this is about to change The Dutch Senate finally gave their approval for Remote Gambling Bill.

However, keep in mind that the Dutch government still restricts such an activity.. A good thing is that the currency in the Netherlands is the Euro At the moment, these online casinos allow the players from the Netherlands to register and make a deposit at their websites.. If you prefer the Dutch language, read the review and you can see if the Dutch language is available at the casino.. So do it on your own due diligence On the other hand, all these online casinos have licenses from many other authorities.
